

<p><b>Goal 6: Use information technology to transform how we educate, conduct research and provide service to individuals and communities in Minnesota.</b></p>	<p><b>AcademicHealthCenter</b> UNIVERSITY OF MINNESOTA</p>
<p><b>Strategic Objectives</b></p>	<p><b>Strategic Initiatives</b></p>
<p><b>1.0 Integrate information technology into the education of our students to:</b></p> <ul style="list-style-type: none"> <li>• Make possible “anywhere, anytime” learning</li> <li>• Enable life long learning</li> <li>• Enhance the quality and effectiveness of learning</li> </ul> <p><b>2.0 Make health information accessible</b></p> <ul style="list-style-type: none"> <li>• Disseminate the latest scientific information</li> <li>• To assist in assessing care delivery and the effectiveness of programs to promote health</li> <li>• To serve as a resource to policy makers</li> </ul>	<p><b>1.0 Work with Biomedical Library to help develop its strategic vision and plan</b></p> <p><b>1.1 Continue development of AHC digital services to support:</b></p> <ul style="list-style-type: none"> <li>• 1.10 Distance Education</li> <li>• 1.11 Technology enhanced learning</li> <li>• 1.12 Life-long learning</li> <li>• 1.13 Faculty development</li> <li>• 1.14 Administrative services</li> <li>• 1.15 Clinical service</li> </ul> <p><b>1.2 Integrate with University digital services to:</b></p> <ul style="list-style-type: none"> <li>• 1.20 Implement new backbone</li> <li>• 1.21 Implement privacy upgrades</li> <li>• 1.22 Implement security upgrades</li> <li>• 1.23 Implement performance/capacity enhancements</li> </ul> <p><b>2.0 Partner with public and private organizations to develop databases, such as:</b></p> <ul style="list-style-type: none"> <li>• 2.01 Health workforce database</li> <li>• 2.02 Health status database</li> <li>• 2.03 Evidence-based Medicine database</li> <li>• 2.04 Clinical research database</li> </ul> <p><b>2.1 Assist UPlan in its efforts to educate and inform the University community in matters of health improvement.</b></p>

**3.0 Use information technology to facilitate research collaboration and improve our competitiveness in health sciences research.**

**2.2 Interfacing with University Extension Services to make health information readily accessible to people**

- 2.20 Partnerships with Extension Regions
- 2.21 AHEC communications and partnerships

**2.3 Effectively use health information web-sites and portals such as:**

- 2.30 Center for Infectious Disease Research and Policy
- 2.31 Center for Food Safety
- 2.32 Comprehensive Cancer Center
- 2.33 AHC and UPlan communications
- 2.34 UMP and Fairview Health Services

**3.0 Continue the development of bioinformatics as a discipline and as a service**

**3.1 Foster the use of Internet II in the Mayo-University partnership**

**3.2 Develop a clinical research database with FHS**
