The Nurses’ Certificate Program in Imagery is an exciting, innovative, four-phase, 110-hour certificate program that offers in-depth training and direct experience in the powerful mind/body modality of Integrative Imagery.

Phase 1 participants learn the fundamental principles of psychoneuroimmunology and core concepts of Integrative Imagery. Brief and expanded techniques for pain/symptom control, surgery preparation, cancer care and promotion of healing will be addressed, immediately applicable in any clinical setting and invaluable for self-care. Phase I serves as an excellent introduction or the prerequisite for continuation for certification.
